Journal of Computer Assisted Learning (1989) **5**, 258–260

Author index

Anderson, A. & O'Hagan, F.J. Dyadic interactions at the microcomputer interface: a case study in computer-assisted learning, 114
Armstrong, P.K., Wiseman, A.N. & Bajpai, A.C. Using classification profiles to question the development and use of CAL in mathematics, 132
Bajpai, A.C. (see Armstrong, P.K.), 132
Bevacqua, G. (see Floris, R.), 161
Bliss, J. & Ogborn, J. Tools for exploratory learning, 37
Blease, D. The implications of the national curriculum for the use of information technology in the primary school, 240
Collis, B. (see Moonen, J.), 198
Cope, P. Teaching PROLOG programming in the secondary school, 223
Driver, R. & Scanlon, E. Conceptual change in science, 25
Eraut, M. & Hoyles, C. Groupwork with computers, 12
Floris, R. & Bevacqua, G. Development and classroom experimentation of interactive geometry exercises, 161
Hall, W. & Layman, J. Desktop publishing in education, 72
Hoyles, C. (see Eraut, M.), 12
Hoyles, C., Noss, R. & Sutherland, R. Designing a LOGO-bases microworld for ratio and proportion, 208
Isaacs, G. Athena, Andrew and Stanford: a look at implementation and evaluation in three large projects, 84
Koster, K. (see Moonen, J.), 198
Layman, J. see Hall, W., 72
Lewis, R. Information Technology in Education Research Programme 1988–93, 2
MacDonald, B. & Stronach, I. The independant policy evaluation, 51
Mancey, A. A CAL experiment in a developing country, 231
Moonen, J., Collis, B. & Koster, K. The evolution of a national research plan for computers in education in the Netherlands, 198
Noss, R. (see Hoyles, C.), 208
O'Hagan, F.J. (see Anderson, A.) 114
Ogborn, J. (see Bliss, J.), 37
Scaife, M. Education, information technology and cognitive science, 66
Scanlon, E. (see Driver, R.), 25
Spavold, J. Children and databases: an analysis of data entry and query formulation, 145
Stronach, I. see MacDonald, B., 51
Sutherland, R. (see Hoyles, C.), 208
Webb, G.I. Courseware abstraction: reducing development costs while producing qualitative improvements in CAL, 103
Welford, R. Introductory analysis in the Social Sciences using small-scale databases, 95
Wiseman, A.N. (see Armstrong, P.K.), 132

Contents

Volume 5 Number 1 March 1989

1 Editorial

2 Information Technology in Education Research Programme 1988–93: *R. Lewis*

12 Groupwork with computers: *M. Eraut & C. Hoyles*

25 Conceptual change in science: *R. Driver & E. Scanlon*

37 Tools for exploratory learning: *J. Bliss & J. Ogborn*

51 The independant policy evaluation: *B. MacDonald & I. Stronach*

56 Book Reviews

Volume 5 Number 2 June 1989

65 Editorial

66 Education, information technology and cognitive science: *M. Scaife*

72 Desktop publishing in education: *W. Hall & J. Layman*

84 Athena, Andrew and Stanford: a look at implementation and evaluation in three large projects: *G. Isaacs*

95 Introductory analysis in the Social Sciences using small-scale databases: *R. Welford*

103 Courseware abstraction: reducing development costs while producing qualitative improvements in CAL: *G. I. Webb*

114 Dyadic interactions at the micrcomputer interface: a case study in computer assisted learning: *A. Anderson & F. J. O'Hagan*

REVIEWS

125 Book Reviews

127 Educational Computing Abstracts

Volume 5 Number 3 September 1989

129 Editorial

131 Letter to the Editor

132 Using classification profiles to question the development and use of CAL in mathematics: *P. K. Armstrong, A. N. Wiseman & A. C. Bajpao*

145 Children and databases : an analysis of data entry and query formulation: *J. Spavold*

161 Development and classroom experimentation of interactive geometry exercises: *R. Floris & G. Bevacqua*
